

WASHINGTON AND OREGON DECLARE WAR ON RADICALS

Many I. W. W. Caught
In Raids By Federal
And State Officers

NEWSPAPER IS SEIZED

Editor Of Seattle Union Record
Arrested And Entire Plant
Taken Over

(By the Associated Press.)

Seattle, Wash., Nov. 13.—Raids were conducted in Washington and Oregon cities today by state and federal officials on Industrial Workers of the World, Bolshevik, and other radicals, and called upon all state officials to co-operate in the work with the federal and county officers. The governor received messages asking him to convene the legislature to pass stringent I. W. W. laws. Federal officers raided today the office of the Seattle Union Record, seized the entire plant, and arrested several employees, including E. B. Ault, editor. The raids were the outgrowth of the killing of four former service men at Centralia, Washington, Tuesday, by alleged I. W. W. members. Seventy-four alleged members of the Industrial Workers were arrested on a haul at Spokane, and at Portland, Oregon, men alleged to be members of the organization were being held for examination. One of the men arrested at Portland, Frank Riley, told authorities he believed the Centralia outrage was a "frame-up" against the I. W. W. The raid on the Union Record was made on instructions from Washington, D. C., according to Robert C. Under, United States district attorney. Federal officers also seized the office of the Equity Printing company and arrested Walker C. Smith, editor of the International Weekly, which is edited in the Equity shop. Smith is charged with violating the Espionage act. Ault, editor, George P. Listman, president of the board of directors of the Record, and Frank A. Rust, secretary-manager of the Seattle Labor union association, were arrested charged with violation of the espionage act. The Record is owned by the Seattle Central Labor Council. Deputy United States marshals ordered a truckload of copies of the mail edition, which was about to leave the office, to be unloaded. During Seattle's general strike in February, it was charged by city officials that the Equity plant printed copies of the alleged inflammatory posters and handbills distributed about the city. Ole Hanson, then mayor, used the plant for a time.

Centralia I. W. W. Hunt Continues

Centralia, Wash., Nov. 13.—Police and former soldiers today continued to seek alleged members of the Industrial Workers of the World who were involved in the fatal shooting Tuesday of four former soldiers during the Armistice Day parade. Britt Smith, an alleged member of the organization, it was announced, identified four of the men held in jail here as men who were in the radical headquarters when the parade passed. The shooting was followed by the shooting of Ernest Everett, whose body was in the jail today as no undertaker would bury it. Everett's death was wrongly identified as "Brick" Smith. The four former service men will be buried tomorrow at a public funeral, which will be attended by their former comrades-in-arms. Members of the American Legion were being guarding the jail since the shooting. Early today, George Paxton, a former soldier, was fired upon as he was strolling the road between Centralia and Chehalis, to which town four of the prisoners had been removed. The person who fired the shot has not been apprehended. Prosecuting Attorney Herman Allen has been instructed by the federal district attorney of Western Washington to place murder charges against all persons against whom Allen has evidence. Conspiracy charges will be laid against the others, it was announced. Smith in this alleged confession today said all of the men in the Industrial Workers headquarters on Armistice day were armed and he said they had declared he "guessed" they had shots at the parade. Smith said he did not shoot. The four men identified by Smith were Mike Sheelan, James McHenry, Roy Becker, and a man named Bulker. Smith also identified the man who was lynched Tuesday night as Wesley Everett. I. W. W. organizer, who also was said to have been in the room where the shots were fired. Four Industrial Workers of the World were taken from jail today to Everett when local undertakers refused to do so. The body was taken from the jail

20,000 More Communist Membership Cards Taken

New York, Nov. 13.—The bomb squad late today seized 20,000 additional membership cards of the communist party, printed in red, as they were about to be taken into communist headquarters by an expressman. Another batch of 20,000 was confiscated in a raid several nights ago. No arrests were made today. A man in the communist office was permitted to sign for the package. The police said the cards were printed in Cleveland, Ohio.

PRESIDENT GREETED PRINCE OF WALES

Conversation Between Two Coverters Wide Range Of Subjects, Including Humorous Incidents

Washington, Nov. 13.—President Wilson, propped in the great mahogany bed in which Baron Renfrew, late King Edward VII, slept when he visited Washington in 1860, greeted today the grandson of that British king in Albert Edward, Prince of Wales. The prince was taken to the president's sick room after he had had tea with Mrs. Wilson and the president's daughters, Miss Margaret Wilson and Mrs. Francis B. Sayre. The visit to the white house followed a motor trip to Mount Vernon, where the youthful British heir laid a wreath on Washington's tomb and planted a young cedar before the resting place of the leader of the American colonies in their struggle against England. Soon after the president and the prince had exchanged greetings, the president noticed that his visitor was looking closely at the massive old bed and told him its history—how the prince's grandfather had slept in it when he was entertained at the white house by President Buchanan and of its being the same bed in which President Lincoln slept during his years in the white house. The president inquired of the prince as to his father, mother and grandmother, and mentioned particularly the pleasure with which he received a cablegram today from Queen Mother Alexandra. The meeting between the prince and the president was much the same as might occur between any healthy normal boy, with a keen sense of humor, and a middle-aged statesman whose cares have not driven the gift of laughter from him. The prince laughed heartily at the visit and humorous accounts the prince gave of his experience since his arrival on the American continent. The British heir was very enthusiastic at the warmth of the reception he had received in the United States. The conversation between the two covered a wide range of subjects, and after the prince had left, Rear Admiral Grayson, the president's physician, said the president's spirits had risen as the result of the visit and that he had enjoyed it greatly.

"Floating Hotel" Awaits Prince

New York, Nov. 13.—The British battle cruiser Renown, which the Prince of Wales will use as a "floating hotel" during his five day visit to New York, and on which he will return to England, was being scrubbed and polished to a state of perfection today to receive the royal guest who is expected tomorrow. The Renown—largest British man of war ever seen in the port of New York—dropped anchor in the Hudson late yesterday after a stormy cruise from Trinidad during which two sailors were swept overboard and drowned. The Renown had cruised 12,000 miles since landing the prince in Canada weeks ago.

KING ALBERT ARRIVES HOME

Brussels, Nov. 13.—King Albert, Queen Elizabeth and their party arrived here this morning from Brest.

floor and placed in a wooden box, which was loaded into a moving van. Accompanied by 17 armed national guardsmen, the four prisoners went to the paupers' section of the local cemetery with the body, dug a grave, lowered the box in, and covered it up without services of any nature. A coroner's jury returned a verdict tonight that Lieutenant Warren Grimm, Arthur McElfresh, Dale Hubbard, and Ben Casaranda, the four service men killed Tuesday, came to their deaths as a result of gunshot wounds, fired by persons unknown. County Attorney Allen said he had evidence which would result in the filing of information charging murder in the first degree against nine men being held here and at Chehalis. Further evidence, he said, might increase the number.

Nebraska To Weed Out Reds

Lincoln, Neb., Nov. 13.—All county attorneys in Nebraska are requested by Governor Samuel R. McKelvie, in letters mailed to them today, to cause the arrest of members of the I. W. W. who he said were scattered throughout the state, and among industrial workers of the state. "For the specific purpose of carrying on propaganda of I. W. W.ism, which is a revolutionary industrial unionism and embraces forceful opposition to the law"

OPERATORS AND MINERS RESUME PARLEY TODAY

Time Of Ending Of 1918 Wage Agreement Is Chief Obstacle

MANY MEN STILL IDLE

Illinois Miners Fail To Obey Orders To Return; Insurgent Forces Active

Washington, Nov. 13.—Coal miners and operators from the nation's bituminous fields will enter into negotiations here tomorrow for a new wage agreement, with the question of the time of termination of the Washington wage agreement of 1918 apparently as the chief stumbling block. Both miners and operators, on the eve of the conference at which the points in dispute in the recent strike are expected to be settled, were hopeful tonight as to the outcome and expressed the belief that the question of when the Washington agreement terminated could be disposed of through mutual agreement along with the demands of the miners for a 60 per cent increase in pay. Believe Operators Will Yield. Announcement by the executive committee of the operators of the central competitive field, in a formal statement tonight, that the Washington agreement is one of the matters "to be determined by the conference," was taken generally to mean that the operators do not intend to stand pat on their contention that present contracts remain in effect during the "duration of the war" or until March 31, 1920, in case a satisfactory settlement is made with the miners on that and other points. Secretary Wilson announced tonight that due to inability of some officials of the United Mine Workers of America, as well as some operators, to reach Washington in time, the conference of miners and operators would convene tomorrow at 2.30 o'clock instead of at 11 o'clock. Unrest in West Virginia. Charleston, W. Va., Nov. 13.—Despite the assurance of officials of the United Mine Workers that they have the situation in control, coal operators and state officials here tonight expressed uneasiness over reports received from the coal fields in the northern counties of the state to the effect that radicals threatened trouble. Since the recall of the strike order, reports have been current that radicals and I. W. W. agitators have been largely responsible for the reluctance of the miners to return to work, especially in the northern district. While C. F. Keeney, president of District No. 17, United Mine Workers, tonight claimed that "about 50 per cent" of the miners in the state were working, coal operators said "not more than 30 per cent of the men" had reported at the mines today. Mr. Keeney expressed the opinion that many more men would return to work tomorrow and by Monday "every man" would be back in the mines. Agents of the department of justice are enroute to the northern coal mining district, Governor Cornwell announced tonight following advice from Washington to that effect. It will be their express purpose to "clean out radical centers" and round up I. W. W. and Russian agitators, he said. Insurgents Active in Illinois. Springfield, Ill., Nov. 13.—Added signs of the determination of mine workers to ignore the order of miners' officials to return to work, and symptoms said to indicate that insurgent forces in the state again were active, constituted the developments in the soft coal miners' strike in the Illinois district today. Operators here appeared to feel that production of coal in Illinois must wait on the outcome of the Washington wage scale deliberations tomorrow. No Work For Alabama Miners. Birmingham, Ala., Nov. 13.—Coal miners who offered to return to work today in the Alabama district were met with statements that "a surplus exists" and that "they would have to stand a physical examination before they would be allowed to return to work," according to J. L. Oleme, secretary of Alabama district No. 20, United Mine Workers of America.

Union Heads in Washington

Indianapolis, Nov. 13.—All of the officials of the United Mine Workers of America tonight either were in Washington or enroute to that city for the conference of miners' representatives and operators with Secretary of Labor Wilson, which begins tomorrow afternoon. John L. Len, the last of the "big heads" to leave the international headquarters here, said a brief statement just before his departure late this afternoon, declaring that the miners were not defeated but have merely acquiesced in the mandate of the court and "expect a demonstration of good faith on the part of the government during the negotiations in Washington."

GOVERNOR'S MOTHER GAINING

New York, Nov. 13.—The condition of Mrs. Catherine Smith, mother of Governor Smith, continues to show improvement, it was announced tonight by Dr. John H. Reb, her physician. "She is, however, suffering from double pneumonia," he said, "and is a long way from being out of danger." Mrs. Smith and the governor's five children arrived at the Brooklyn home from Albany today. The governor said he would remain at his mother's bedside until assured by physicians that she would recover.

HUGO FAVORS BETTER ROADS

New York, Nov. 13.—Expressing himself in favor of better and bigger highways in New York state, Francis M. Hugo, secretary of state, speaking here tonight at the New York State hotel association's annual dinner, said that good roads would mean good hotel business. In four years, the number of automobiles in the state had increased from 250,000 to 550,000, he added. Elmer C. Green of Buffalo, the newly-elected president of the association, and Ret. H. A. Moore of Buffalo, also spoke.

LONDON "WELCOMES" U. S. PROHIBITIONIST

Is Dragged From Platform, Severely Beaten, and Paraded On a Plank

London, Nov. 13.—William E. Johnson, an American prohibition worker and Anti-Saloon League organizer, familiarly known here and elsewhere as "Pussyfoot," was dragged from a platform from which he was speaking, today, severely beaten, and paraded through two miles of crowded West End streets on a plank. His assailants for the most part were medical students, and against them at times he put up a strenuous fight, receiving a badly-damaged eye and other injuries so that finally owing to his weakened physical condition he was obliged to submit to the indignity. The meeting had been arranged under the auspices of the Overseas club and the Patriotic League, F. A. Mackenzie was the chairman. Mr. Johnson was announced as the principal speaker for prohibition, while the anti-prohibition debater was F. Mitchell Banks. The subject of the debate was "The Why and How of American Prohibition." An admission fee was charged, and the hall, which holds 500 persons, was filled. Before the time for debate to start, the organizers became nervous because of the large crowds of students and others outside the hall. They called for police assistance and locked the outer gates of the building. The students, however, rushed the police, broke through the gates, and entered the hall. They seized Johnson, after pelting him and Mackenzie with bags of flour, and then carried Johnson on their shoulders from the platform into the streets. Johnson was carried through Piccadilly Circus, Regent street and Oxford street. Leaving Essex hall he made stout resistance but was placed on a wagon. Johnson continued to make a strong fight until the procession reached Leice ter square, when he accepted the situation. He was then placed on a plank and hoisted to the student's shoulders. At first the police walked with the procession without interfering, but they finally diverted the course of the march and rescued Johnson near Oxford Circus. He was taken to the Bow street police station. He suffered an injured eye and was given first aid by the police. Then he went home to his own flat.

HOUSE MAKES PROGRESS ON R. REORGANIZATION

Four Important Points Settled Yesterday, Each Having Far-reaching Effects

Washington, Nov. 13.—Four important points of the railroad reorganization legislation were settled by the house today during consideration of the Each railroad bill. Each of the provisions approved has far-reaching effects in providing capital to the carriers, both in the period immediately following government control and afterward. With one exception, all of the provisions provided sharp fights, but only one was changed. In brief, the provisions approved by the house provide: Carriers must ask the Interstate Commerce commission for general increases of rates within 60 days after their return to private operation. Revenues of carriers, including short lines and express companies, for the first six months of private operation, are guaranteed by the government to equal the corresponding standard return paid as rental by the government during federal control. Carriers' indebtedness to the government remaining after a settlement of the rental owed by the government may be funded for ten years on demand notes at six per cent interest; and carriers may obtain government loans from a \$250,000,000 revolving fund during the first two years of renewed private operation. Such loans to mature in five years, bearing six per cent interest and to be secured.

HOPE OF EARLY SETTLEMENT OF PRINTERS' STRIKE GONE

New York, Nov. 13.—Hope of an early settlement of the printers' strike, which has caused the suspension of publication of several score magazines and trade papers for two months, was abandoned today when 500 members of the printers and lithographers piece-makers union No. 1 went on "voluntary vacations." This brings the total number of unemployed men in the printing industry here to 11,500. Lithographers demand a thirty per cent increase in wages and recognition of their union before returning to work according to John R. Ritchie, secretary of the union. Ritchie also announced that the local had seceded from the international printers' union.

PARIS GETS MORE COAL

Paris, Nov. 13.—There has been a slight improvement in the coal situation in Paris. Arrivals of coal have been more frequent and the larger plants are supplied with sufficient coal for three or four days. The restrictions on the use of gas and electricity continue in force.

WHISKY OPENLY SOLD WITHOUT INTERFERENCE

Louisville Distillers, Protected By Injunction, Open Business

U. S. ISSUES WARNING

Prosecutions Liable To Result If The Dry Law Is Declared Constitutional

Louisville, Ky., Nov. 13.—For the first time since July 1, when war-time prohibition went into effect, whiskey openly was sold in Louisville today without interference by the federal authorities. The sales were made by two Louisville distillers from their tax-paid floor stocks, under the protection of a temporary injunction issued by Federal Judge Walter Evans, but in the face of a government warning that if the supreme court finds war-time prohibition constitutional prosecutions would be possible. Sell 4 per cent Beer in Rhode Island. Providence, R. I., Nov. 13.—Following the entry of a decrease in the United States court today enjoining federal officers from enforcing the war-time prohibition law, saloons in this city and state began at once the sale of four per cent beer. Outside of Providence, saloon keepers continued to sell as long as their supply at hand lasted, but in this city the police commissioner at 9 o'clock tonight notified every dealer to stop the sale of anything stronger than one-half of one per cent. Government Remains Firm. Washington, Nov. 13.—Attorney General Palmer's position with respect to enforcement of war-time prohibition has in no way been altered by court decisions in Rhode Island and Kentucky, it was officially stated tonight at the department of justice. The government's contention that the war-time law is valid, it was added, would be vigorously defended until final decision has been handed down by the United States supreme court.

San Francisco, Nov. 13.—Rodolph A. Samet, president of the California Brewers' association, notified the internal revenue collector here today that he would begin at once the manufacture of beer containing 2.75 per cent alcohol, according to an announcement by the collector.

HOPE OF EARLY SETTLEMENT OF PRINTERS' STRIKE GONE

New York, Nov. 13.—As one means of recouping financial losses resulting from prohibition, the hotel men of the country, in session here, were asked today to endorse a "See America first" campaign. As the first step they were advised to labor with banks and the American Railway Express company in an effort to convince them that they should cease diverting the sale of travelers' checks which are good in other countries.

DRANK SKIN TONICS—NOW DEAD

Mt. Morris, N. Y., Nov. 13.—The verdict of Livingston county's coroner, J. C. Preston, on the death of George Bly, of Perry, here late yesterday, gave acute alcoholism as the cause. According to information furnished the county authorities, Bly, in the scarcity of ordinary alcoholic beverages, had taken quantities of skin tonics, lemon extracts, Jamaica ginger and denatured alcohol.

Plane Carrying Express Plans Long Flight Today

Minneapolis, Nov. 13.—Vice Admiral Mark Keir announced tonight that he expects to start from Mitchell field tomorrow morning with his big Handley-Page bombing machine on a nonstop flight to Chicago. The plane will carry 2,600 pounds of express for the American Railway Express company. The main purpose of the flight is to demonstrate the possibility of using a shipper for commerce.

U. S. SEEKS TO PREVENT ARMS GOING TO MEXICO

Large Orders Placed In Europe In Preparation For Possibility Of American Intervention

Washington, Nov. 13.—Large orders for arms and ammunition, placed by Mexico in Belgium and Spain, in preparation for the possibility of American intervention, came to light today when the state department let it become known that the government had taken steps to prevent their shipment. The charge d'affaires of the United States embassy in Brussels has protested, under instructions, that shipment of the munitions would be in violation of the international arms convention. As Spain is not party to the agreement, which was designed to aid in keeping the peace of the world during the after-the-war transition, no such direct action is probable at Madrid. The order in Belgium was placed with the Fabrique Nationale d'Armes at Liege, probably under the direction of Candido Aguilar, Mexican minister of foreign affairs and President Carranza's son-in-law, who went to Europe recently, after stopping here and placing a wreath on George Washington's tomb at Mount Vernon. The orders in Spain, which included rifles, millions of rounds of ammunition, and a large number of machine guns, were negotiated through the Mexican minister there, Eleseo Arredondo, former ambassador to the United States and President Carranza's nephew. The Spanish munitions, according to information in the hands of the government, began passing into Mexico more than a year ago, while the European war still was going on, and in violation of the interallied embargo.

RACE RIOTS IN WILMINGTON

Trouble Follows Killing of Policeman By Negroes; White Mob Routs Streets.

Wilmington, Del., Nov. 13.—Rioting between whites and negroes broke out here tonight following the killing of one policeman and the wounding of another by negroes whom they were questioning regarding a recent riot. Angered by the double shooting, bands of whites roamed the streets tonight. A clash occurred when 300 suddenly came upon four negroes. Both sides opened fire and Bannell Field, a negro, fell with a wound in the head from which he is expected to recover. The whites then closed in on the other negroes, who were saved only by the prompt arrival of 15 policemen.

GIVE LEGION \$10,000 TOWARD BUILDING PERMANENT HOME

Indianapolis, Ind., Nov. 13.—The Indianapolis Chamber of Commerce today voted \$10,000 toward a fund for building a permanent home for the American Legion in this city. Indianapolis was named as headquarters for the Legion yesterday at Minneapolis.

SENATE ADOPTS RESERVATION TO ARTICLE X

Solid Republican Line-Up, Reinforced By 4 Democrats, Wins

PROPOSAL UNAMENDED

Senate Approves It In Same Form It Came From Committee—Vote On Closure Saturday

Washington, Nov. 13.—Squarely joining the issue with President Wilson, the senate adopted today a reservation qualifying the obligations of the United States under Article X of the League of Nations covenant. A solid Republican line-up, reinforced by four Democratic votes, put the reservation across exactly as it came from the foreign relations committee and in virtually the language which the President declared on his western tour would cut the heart out of the covenant and mean the rejection of the treaty. The vote by which the reservation won was 46 to 33. The fight for reservations having thus been carried to a climax, the Republicans presented for future action a closure proposal designed to bring final action on the question of ratification within a week. A less sweeping measure, proposing limitation on the reservation debate only, had been put in by the Democrats earlier in the day, but was rejected when the Republicans voted to sustain a point of order against it. A vote on the question of clamping down a closure on debate will come Saturday morning and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make closure effective. The Democratic leaders were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a program might imperil their chances to secure action on a ratification resolution of their own. The Article X reservation as adopted by the senate follows: "The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere with controversies between nations—whether members of the league or not—under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in each particular case the congress, which under the constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

URGE TREATY'S RATIFICATION

Buffalo, Nov. 13.—A telegram to President Wilson urging immediate ratification of the peace treaty with Germany as the first step toward the return to normal conditions was sent today by the All-Polish convention in session here. "We sincerely believe," the resolution said, "that the restoration of confidence, the revival of mutual trust and respect, not only of nations but of individuals, depends upon the early ratification of the treaty."

OPPOSES HONOR TO PRINCES

Prussian ex-Minister Wants No Streets in Berlin to Bear Royal Names—Military Names Taboo.

Berlin, Germany.—Protest is entered by Attorney Rosenfeld, former Prussian minister of justice, that despite the months that have passed since the revolution, the abdication of the emperor and the overthrowing of thirty or more princes and princelings, kings and what not, the streets of Berlin still bear in inordinately large numbers the names of royalty. He cites a few, such as Kaiser Wilhelm street, a Koenig, a Friedrich, a Karl, Prince Louis Ferdinand, Prince and Princess street.

The names of former military leaders and generals should go also, he argues, citing such streets as Zieten, Blücher, Gneisenau, Scharnhorst, Moltke and others. He objects also to the naming of streets after the military in these piping days of revolution and republic.

The Laboring Streamlet.
The seventh graders were studying Paul Hayne's "The River" and the teacher wished them to compare its course with that of life. So she asked several questions, among them "To what age in life does the laboring streamlet correspond?" And this was Henry's answer: "The laboring streamlet rushes and roars and is full of waterfalls. It corresponds to the age from eighteen to thirty, because then we are having all our troubles—rushing along and getting married and having children."

MARKET REBOUNDS FROM LOW LEVELS

Break in Money Rates Causes Jump; Appreciable Advances Throughout List

New York, Nov. 13. — When call money rates broke to 6 per cent in the final hour of trading, the stock market rebounded today from its low levels and closed at appreciable advances throughout the list. Trading was heavy before the closing, and many stocks, notably motors, oils, steels, equipments, affiliated industries, and a score of miscellaneous specialties, showed gains for the day of from 5 to 20 points. Sales for the day approximated 2,200,000 shares.

Rates for call loans held at 16 per cent until about 2 o'clock. Then they broke to 12 and rapidly went to 6, the normal rate. This was believed to mark the passing of the stringent money period. Leaders in the spirited rise which followed were the issues which broke most severely yesterday and the day before.

The market was steadier at the opening today, but the initial high rate for call money caused an avalanche of selling in the next hour or two.

Factors which contributed to the lower rate were the lending of money by brokers, who offered their surplus funds and announcement from Washington that the federal reserve board had taken no action on credit conditions here.

One of the leaders of the spirited rally was General Motors, which opened at a 15-point rise only to lose its advantage, and finally advanced by leaps and bounds to 325, an extreme recovery of 45 points. Mexican Petroleum, in which support seemed altogether lacking, yesterday, rose over 30 points.

The extent to which the short interest involuntarily participated in the rebound by covering of contracts is naturally a matter of debate, but the market's recuperative power suggested that no small part of the recent reversal was due to bearish aggression.

Trading in bonds was confusing, recessions in industrials being balanced by the strength of rails. Liberty issues made up part of their early heaviness. Total sales, par value, aggregated, \$17,850,000. Old United States bonds were unchanged on call. New York Produce

BLACK HAWK IS IN MUSEUM

Bones of Famous Indian Chief Are Placed in Glass Case in the Desert Museum in Utah.

Salt Lake City.—The bones of Chief Black Hawk, who played havoc with settlers in Utah in the early 60's, now rest peacefully in the Desert Museum in the Mormon temple grounds.

The skeleton was brought from an Indian burial ground near Spring Lake Villa, Utah county, this state, and with all accoutrements of Indian burial, now reposes in a glass case.

From veterans of raids made by Black Hawk's bands, it is declared the Black Hawk wars of Utah began in 1864, when a small band of Indians entered an epidemic of smallpox and blamed the white settlers for it.

was accompanied by Mrs. Whitney,
who will spend a few days at Little
Falls.

Red Cross Drive Continued.

The Red Cross drive for member-
ship will be continued another week,
according to word received from Ma-
jor General John F. O'Ryan. The
reason given is the interference of
election day with the campaign plans,
which detracted people's interest from
the drive.

The committee in charge here has
received a comparatively small num-
ber of memberships, according to re-
ports Wednesday. Only about 80
members have been secured, as com-
pared with nearly 300 last year. The

DID you ask some one about the Edison Tone-Test re-
cital given last Monday in the Oneonta Theatre?
The startled audience heard Leola Lucey's living voice flood
the packed house. It then heard the New Edison match that voice, even
unto its finest variation of shading and feeling. Any one who was present
will tell you.

THE OUTRAGE IN CENTRALIA.

There has never been doubt as to the fundamentally erroneous principles which have inspired the activities of that band of unworthy men who are the leaders of the International Workers of the World. Not workers themselves at all, they have secured through high-phrased speeches and specious utterances an influence for evil among the more ignorant class of workers and even among those in many instances who ought to know better. They are in fact the American manifestation of that spirit of anarchy and disorder which in Russia is dominant in the Bolshevists. They have stood for all that is worst in the United States, but not always has it been able to secure evidence which would convict. Of late, however, raids have been made which have brought to light their policies, and so appear to give the government opportunity to crush the serpent whose head is definitely revealed.

The latest evidence of what the I. W. W. really is is that which came through the outrages at Centralia, Wash., on Tuesday, when from the local headquarters of that body shots were fired into a body of returned soldiers who were marching in the Armistice day parade. With no provocation whatever, with no previous altercation of any sort, the shots were fired and four men who had loyally served the nation over seas were shot down in cold blood. It was deliberate, premeditated murder, for which there could be no excuse nor the quality of which could not be in any way extenuated. That one of the men, definitely known as one of the shooters, should have been taken from the jail and hung, is not in line with the orderly processes of government. None the less it was not to be wondered at that soldiers returned from service should not see their comrades on many battlefields made the victims of the members of this detestable propaganda. The courts of Washington will now take the matter up, and it is evident that they will not deal leniently with these cold-blooded investigators and perpetrators of crime.

Among the tons of documents and records of the I. W. W., lately found in raids at various headquarters, is the following brief statement of what these American Bolshevists propose:

- 1—All factories, farms, railroads and stores of food and clothing, farm implements, machinery, etc., to be seized.
- 2—Prisons to be opened and destroyed, all fences, walls and other boundary marks demolished, court houses and all legal papers burned, police stations razed.
- 3—All debts to be cancelled and private ownership of property to be declared at an end.
- 4—Police chiefs, heads of the secret service and big detectives agencies and all high military officers to be executed.
- 5—Churches to be closed or used as barracks for the rebel forces.
- 6—A new government of "village communes" to be set up after all vestiges of the existing government are obliterated.

The above six points of the I. W. W. program are presented for the consideration of the public. Is it not about time that every loyal American should stand up for that enforcement of law and order without which neither property, life nor those fundamental principles of religion and morals which are properly esteemed greater than life can be secure?

ANNUAL BUREAU MEETING.

Farm and Home Association of Delaware County Meet Next Tuesday.

The annual meeting of the Farm and Home Bureau associations will be held in the opera house, Delhi, Tuesday, Nov. 18, beginning at 10:30 a. m. It is expected that most of the business of both bureaus will be transacted in the morning in separate sessions. There will be a basket lunch at noon as usual and free coffee will be served by the Home Economics department of the State school. There will be music all day.

In the afternoon addresses will be given by Mrs. A. E. Bridges of Cortland, president of the New York State Federation of Home Bureaus, on "Homemaking as a Business" and by H. W. Collingwood, editor of "Rural New Yorker," on "The Farmers' Relation to the Present Unrest."

The committee in charge has deemed it wise to hold an evening session similar to the one of two years ago. At this time C. W. Whitney will have charge of a county sing.

It is planned to have this program of value and interest not only to the farmers but to the town people as well. Everyone is invited to come and help make this a big day. For detailed program consult the November issue of the Farm Bureau News or local committeemen.

COMMENTS OF THE PRESS.

We Also Have Our Troubles.

If we could get rid of our strikes and the league of nations business was disposed of, and the next presidential election was out of the way, and the high cost of living wasn't so everlastingly high, and everything was as safe as it ought to be for democracy everywhere, perhaps we might find time to take over the burdens and tribulations of a few European and Asiatic peoples. It would be nice of us if we did, but just now we seem to be quite busy around home.—[Philadelphia Press.]

Cold Comfort.

One way is to substitute wood for coal, but another way to fight coal cost is to regard summer heat in winter as unnecessary and unhealthful and look upon the heating of unused parts of a residence as avoidable expense.—[Louisville Courier-Journal.]

Safety First.

President Carranza has issued a statement in which he says he will keep hands off during the ensuing campaign for the presidency of Mexico. Most of the aspirants will assist him in this generous policy by maintaining a safe distance from the capital until the election is over.—[Cincinnati Enquirer.]

Properly Convicted.

Berger says he was convicted by a "hand picked" federal jury. No doubt had he been allowed to pick his own jury he would have been acquitted, for, unfortunately, he has a good many followers. He has not yet escaped the imprisonment that is his due, and his followers would do well to take warning.

The house of representatives has been purified by the expulsion of Victor Berger. If there are any others of his stripe there, they, too, should be ousted.—[Albany Argus.]

Impromptu Speaker.

The new preacher was asked if he would like any special hymn to be sung to agree with his sermon. "No," he replied. "The fact is, I hardly ever know what I am going to say until I arrive at the pulpit."

"Well, in that case," said the vicar, "we had better have the hymn, 'For Those at Sea.'"
—[Dallas News.]

Nobody Envious.

Nobody would envy that man who says he expects to live 400 years by eating raw oats and rice and drinking olive oil if his expectation were realized. Just think of living all that time on such a diet.—[Exchange.]

The Government Cannot Run Railways.

If there is one thing that the government of this country cannot do it is to run the railways. Whether it is because the right kind of men cannot be found or whether it is due to the don't-care-how-things-go feeling or general inability, the fact remains that, as the conductor of the railway lines of the land, the government is a failure.—[New York Telegraph.]

Newspaper Men to Meet.

The fall meeting of the Susquehanna Valley Press association is to be held at Sidney on Saturday, November 29th. It is hoped to secure a capable speaker from away to address the gathering and in view of the constantly advancing price on print paper it would seem worth while to meet and discuss conditions.

Hats.

H. R. H. THE PRINCE OF WALES

H. R. H. the Prince of Wales, heir to the British throne, received in Washington by Vice-President Marshall all as the nation's guest. "Your institutions, your ways of life, your aims are as 'democratic as ours'" says Wales to the American people addressing them through the National Press club. "As democratic as ours!" What do you know about that! Sixty years ago his grandfather rolled down broad Pennsylvania avenue and we won't deny, his grandfather was a gentleman and a democrat, and the young Prince by his affable, pleasing and unaffected manner is winning the crowds.

FIRST COMMITTEE REPORT.

Assessment Rolls of Various Towns Found in Proper Form.

Cooperstown, Nov. 13. — The first of the standing committees of the Board of Supervisors to report, that of the committee on forms of assessment rolls, submitted its report this morning. The report states that the committee has examined the rolls of the various towns and finds them in proper form, with the exception of a few minor errors. A motion was made by Mr. Cross, chairman of the committee, that each supervisor be appointed a committee of one to make necessary corrections in the roll for his town. The motion was carried.

Petitions for the raising of taxes for town expenses, fire, water and lighting district funds, were received from the town boards of Burlington, Edmeston and Unadilla. The petitions were referred to the committee on town expense.

The committee on footing assessment rolls, the next standing committee to report, will probably have its work completed and report ready to submit at tomorrow's session.

Mr. Disbrow, chairman of the committee on county offices and compensation, offered a resolution that the committee be authorized to purchase a new typewriter for the use of the board. He explained that the machine now in use was entirely inadequate for the board's needs. Mr. Ferguson moved as an amendment that the old machine be sent to the factory to be overhauled and repaired. Mr. Disbrow accepted the amendment and the resolution was unanimously adopted.

Superintendent of the Poor Melvin J. Emay was at the supervisors' chambers this morning, conferring with the members as to a convenient time for the annual visitation of the board to the County farm.

ONEONTANS HAVE PICNIC DANCE

Motor to Davenport with Lunch Boxes and Dance Evening Through.

Last evening about 30 couples of Oneontans, accustomed to meet for social dances, motored to Davenport, having previously engaged the hotel building there for the night. They took with them edibles and were accompanied by Canning's orchestra. The party danced until midnight and perhaps after, and later partook of the covered dishes, each lady having provided some edible refreshment for the throng. The ride, the dance and the feast were alike enjoyed.

Largely Attended Church Supper

One of the largest attended suppers ever held at the Oneonta Plains Methodist Episcopal church was served last evening, beginning at 6 o'clock, by the Ladies' Aid society of the church. The net proceeds were \$82. The supper was an excellent one and was keenly relished by all. Collier's orchestra of West Oneonta furnished appropriate music.

A great many overcoats look fine when you first wear them, and then after a few weeks they don't quite have the same "set." They get a bit out of shape and lose a little of that "pep" they had the day you first tried them on.

That's the wonderful thing about the Knit-tex coat. In addition to its lightness and softness and warmth it has remarkable shape-retaining qualities. It looks like a new coat the second season. It doesn't wrinkle, it never gets out of shape and it scarcely ever needs pressing.

Wild Film Protest.

City Administration Asks State Industrial Commission to Act.

Acting upon the advice of Mayor Ceperley, City Attorney Owen C. Becker, who left yesterday for New York accompanied by Mrs. Becker, to spend a few days in New York city, will endeavor to secure white in Albany an interview with one of the state industrial commission and will, if it be granted, file a protest to the rulings of an inspector for that department who recently visited the city and inspected the mercantile and other business places. He will call attention to some of the requirements of property owners here which are considered unreasonable and will ask either that a re-inspection be made or that the requirements be amended. It is understood that a number of property owners have filed protests with the commission and asked that they be relieved of obligation to comply with many of the rulings made by the inspector. Others have found it impossible to secure workmen to do the work required and have so notified the department. It is not thought likely that any summary action will be taken until a sufficient time is given in which to comply, and it is hoped that modifications will be granted by the commission.

GET YOUR INCOME TAX BLANKS

Facts Concerning Statements Which Must be Filed With State Comptroller's

Blanks for persons who pay \$1,000 or more during this year for salaries, commissions and interest, which must be filed in the State Comptroller's office between January 1 and March 15, next, under the personal income tax law, are ready for distribution. Comptroller Travis announced today: Where rent is paid to a landlord, the Comptroller explained, this must be reported, but not when paid to an agent.

No blank is to be filled out for dividends, interest coupons payable to bearer or bills paid for merchandise, telegrams, freight, storage and similar charges, nor is one needed where checks are sent to non-residents for pensions, bank deposits or bond interest.

As the law mainly concerns individuals, where payments are made to corporations or partnerships, the Comptroller does not ask for any statement. This is also true in the case of fees given for professional services except where they are annual or fixed retainers.

Building Operations.

A. Angellio has an addition to his green house on River street, a boiler room, well under way, the cellar having been dug, the foundations erected and the frame partially constructed. In connection with this he will build an addition to his house.

S. J. Richards is building a house on Walling avenue, which he is occupying as a residence. At present, the outside is being bricked. If the evenings last long enough, Mr. Richards will soon have the building completed.

S. E. Bennett of Tilton avenue is building a brick house at 2 Ceperley avenue. The foundations are completed and the walls are up, but the roof is not yet on. Mr. Bennett will occupy the house when completed.

R. D. Brooks of Milford Center has just completed the construction of a residence on Ceperley avenue. Mr. Brooks will rent the property.

SECRETARY DAVIS RESIGNS

After Two and a Half Years of Faithful Service With Railroad and Local Y. M. C. A.—His Successor Andrew C. Lang of Buffalo—New Secretary Will Arrive in Oneonta Monday.

Announcement was made in the city yesterday that Albert B. Davis, who for the past two and a half years has been in charge of the work of the Oneonta Railroad and Local Y. M. C. A., had resigned his position, and that his successor for this important work had been named. Mr. Davis, it is understood, handed in his resignation to the board about two months ago; but until a recent date his successor had not been decided upon. While the plans of the retiring secretary for the future have not been announced, it is understood that he will remain for a few weeks for the purpose of familiarizing his successor with the work and with local conditions. Afterwards he will doubtless engage elsewhere in the work for which he has excellent qualifications, and in which he has had long experience.

The new secretary is Andrew C. Lang, who for some time has been secretary of the Buffalo Creek Railroad branch of the Buffalo Y. M. C. A. Prior to his engagement at Buffalo Creek, where he has done excellent service, he had been assistant secretary at Albany and Rensselaer. In addition to his railroad work, it is understood that he is greatly interested in the work with the young boys, and it is his hope largely to develop the association along this line of useful endeavor. He is a little over 30 years of age.

Mr. Davis, who retires from the work in Oneonta with the best wishes of many friends, came in May, 1917, from Rouses' Point, where for several years he had held a similar position. During his sojourn here the membership of the association has largely increased, and there has been developed a good and well-patronized dormitory proposition for railroad men. Much has also been done in the line of boys' work, and a campaign has been put through largely through his efforts, in which pledges for \$4,100 were secured, most of which has been paid. During the period of the war Mr. Davis also devoted much time to troop train work, in addition to his regular duties in this city.

It was also largely through the efforts of Mr. Davis that the new bowling alleys, which are now practically ready for play, were installed and his interest in bringing about this much-needed improvement is especially appreciated by the large number of young men who every winter enjoy this form of indoor sport.

During his sojourn here Mr. Davis has made many friends whose best wishes will attend him in whatever field of usefulness he may engage.

FALLS ON BUZZ SAW.

Italian Seriously If Not Fatally Injured Yesterday Afternoon.

John Buongiorno, an Italian living at 13 Parish avenue, was seriously if not fatally injured yesterday afternoon about 5 o'clock.

Buongiorno was engaged in sawing railroad ties in lengths suitable for stove wood, using a power driven circular saw to cut the wood. In some manner he fell on the rapidly revolving saw, cutting open his chest so badly that both lungs were exposed. The ambulance was summoned and the injured man taken to the hospital, where his condition was said to be critical. So far is known the injured man has no relatives in this country.

To Open New Floral Shop.

VEAL SERVED AS VENISON.

Would be Sportsman Alleged to Have Shot and Carried off Jersey Calf

Complaint comes from the vicinity of Cooperstown Junction of the conduct of certain would-be sportsmen alleged to have from this city during the present season and the residents of that locality are incensed over the fact that a choice Jersey heifer belonging to one of the well known farmers there was shot down by one of these hunters and its carcass carried off. While it cannot be verified it is hinted that the meat of the animal found its way to the table in this city labeled as venison to satisfy the ambition of the hunter although it is quite well established that the man firing the shot knew that it was a domestic animal and in no sense a deer. An investigation before the authorities may follow.

Another offence which may prove disastrous to the hunters is the shooting of chickens which had wandered some distance from the farm buildings while a third instance of recklessness on the part of a young hunter from this city is reported. This young man it is reliably stated had visited a certain farm several times and was warned that the flock of geese which the farmer prized highly were domestic and not to disturb them. Despite this he proceeded to shoot several of the geese and when compelled to accompany an onlooker to the home of the owner he refused to pay for the geese and attempted to justify his conduct. Having been warned his conduct is the more reprehensible.

The incidents are much to be regretted as they are inclined to bring and may result in lands being posted. All true sportsmen will frown upon Oneonta hunters fond of a few hours of sport in the woods into illrepute such conduct.

THE GROVE STREET GREENHOUSES

ESTABLISHED 1881

For 38 years it has been the aim of these greenhouses to produce nothing but "FLOWERS OF QUALITY,"—to send out anything also would be a violation of our ideals.

This is the reason that the Grove Street imprint stands for something "Just a Little Better" in any phase of the floral trade.

The management of the business has changed hands, but to perpetuate the ideals of Mr. and Mrs. Peck will be the constant aim of the new owners.

Chrysanthemums

The word Chrysanthemum comes from the Greek meaning "Golden Flower," and is well named, for no flowers which adorn the year are so handsome and varied as these visitors of the fall.

Our selection was never so large—a veritable riot of gorgeous colors in dozens of varieties and sizes. They will all nod you a welcome when you call, whether you take them home or not.

DEATH OF LEVI TICE

For Half a Century Well Known Resident of Schenectady Summons

Schenectady, Nov. 13.—Levi Tice for a half century, an esteemed and well known resident of this village, died at his home here at 10:30 this morning, after a year's decline and following two shocks suffered during the past month. The funeral services will be held from his late home on Saturday, at 2 o'clock, with interment in the Schenectady cemetery with Masonic honors, he having long been a member of the local lodge.

Mr. Tice was born at Seward, August 8, 1842, the son of John and Emeline (Cutler) Tice and was the last of their nine children to survive.

Most of his early life was passed in Seward. He married in 1865 Miss Martha Boon, a sister of the late Dr. Henry W. Boon, long a practicing physician here. He was long engaged as a potato buyer and was the first person to ship a carload of potatoes to Schenectady when that city was quite small, since which time, however, he has shipped hundreds of carloads there. He also at one time conducted the Crumhorn Mountain house at Crumhorn lake in the heyday of its prosperity and was widely known among its patrons of that time.

The deceased was a member of the Schenectady Masonic lodge and possessed a genial sunny disposition and a kindly manner that made friends of all with whom he came in contact.

He was good citizen and neighbor and all learn with regret of his demise. He is survived by the widow, one daughter, Mrs. Tyler M. Chase of this village and one son, Fred E. Tice, the well known feed merchant at Schenectady, a second son, Frank, having died about 12 years ago.

PERSONALS

M. H. Sherman of Milford was a business visitor in the city yesterday. Mrs. M. G. Shutt, Columbia street, left Thursday to spend the day in Unadilla on business.

Mrs. M. L. Ford and daughter, Alice, 86 Chestnut street, left Thursday for New York to visit friends for a few days.

Mrs. F. B. Partridge has returned from a few weeks pleasure trip in Newark, New York city and Philadelphia, Pa.

Mrs. V. N. Sherman of Otego was in this city Thursday on her way to Cooperstown to attend the Sunday school convention.

Mrs. Melissa Slater, who has been visiting her niece, Mrs. Robert E. Lee, 12 Gardner place, returned Thursday to her home in Johnstown.

Mr. and Mrs. G. L. Winans left the city this morning for Boston to attend the wedding of their son, Reed L. Winans, who is to be married in that city Saturday.

Mrs. M. F. Butterfield yesterday shipped her household goods to Binghamton and will store them for the winter at least. She left last evening for Binghamton but will return here later. It is not unlikely that she will spend the winter in Washington, where her daughter has a lucrative position with the treasury department. It is understood that an option has been given on the Butterfield tract.

Dr. Ellery Follett, formerly of this city and son of Delos Follett who recently returned from service with the Dental corps and who received his diploma shortly before enlisting, is now engaged in Nassau county where a full dental office equipment has been placed upon a motor truck which is moving from school to school caring for the teeth of the pupils. Reference was made in a recent issue to the project, which is financed by some of the wealthy people of the county.

Funeral of Mrs. C. D. Sewell

The body of the late Mrs. Clarence D. Sewell, who died on Tuesday last at the family home in Cortland, was brought to Oneonta yesterday afternoon for burial, arriving on the 3:45 train. Many warm personal friends of the deceased and of the family assembled at the union station and accompanied the cortege to the Plains cemetery, where for the present the body was placed in the vault in the mausoleum. The commitment service was conducted by Rev. Dr. James C. Russell of the First Presbyterian church; and J. A. Dewar, Arthur N. Coy, A. C. Holley, B. H. Gilderleeve, A. S. Morris and L. C. Gurney acted as bearers.

The body was accompanied from Cortland by Mr. Sewell, daughter and son, Miss Ruth Sewell and Robert Sewell, and by Mrs. P. C. Gilchrist. Among other relatives and friends present from a distance were Mr. and Mrs. Charles Hopkins and two daughters of Gilbertville, Mrs. E. L. Neft and Mr. and Mrs. C. R. Nichols of Norwich and Harry E. Gilchrist of Westfield, Mass.

Funeral of Mrs. Perry

The funeral of the late Mrs. Cutler Perry, held from the family home at 6 Cherry street Thursday afternoon at 2 o'clock, was largely attended, the members of the Ladies' Auxiliary to the Brotherhood of Locomotive Engineers attending in a body and many members of the Brotherhood being present in addition to other neighbors and friends. There was a profusion of floral pieces, notable being those from the two organizations named. The services were conducted by Rev. Dr. B. M. Johns of the First Methodist church with which church she had recently become affiliated. Dr. Johns spoke comforting words. The body was interred in the family plot at the Plains cemetery. Members of the family acted as bearers. Among those present from away were Mr. and Mrs. E. D. Miner of Norwich.

Be Sure You Get The Bottle

Millions use Jiffy-Jell Desserts to get the real fruit flavors. But sometimes women get the wrong dessert and find the bottles lacking. Be careful Jiffy-Jell is the only dessert with these fruit-juice essences in glass. The flavor is made by crushing fruit. The juice is then condensed. It comes to you in liquid form, in vials—a bottle in each package. Jiffy-Jell is a real-fruit dainty. It brings you the delights and the healthfulness of fruit. And people need fruit daily.

There are other names which sound like Jiffy-Jell, but they lack these bottled flavors. Be careful of the package and you'll not be disappointed.

DEATH OF M. G. LOWENSTEIN

Well Known Oculist Passes Away at Socorro, New Mexico.

Announcement comes from Socorro, New Mexico, of the death there recently of M. G. Lowenstein, who removed from New York to the former state about two months ago. The deceased was formerly a traveling oculist and was well known in this section and for years paid regular visits to this city. The circumstances surrounding his death were unusually sad.

He arrived in Socorro about two months ago, shortly before the death of his brother, Morris, who had long been in the mercantile business there. Shortly before his death, when his condition became serious and it was found that a surgical operation afforded the only hope of saving his life, he was united in marriage with Mrs. Rose Lowenstein, the widow of another brother, Leo, who had died within the past year. The wedding had been planned for a few days later, but when the operation became necessary it was decided to have the ceremony performed before the operation. He lived but few hours after the operation. The funeral was held there with interment in the Jewish cemetery in Albuquerque, the Masonic service being rendered. The only surviving relatives are the widow of a few hours and one brother residing in Germany.

November Meeting D. A. R.

The November meeting of the Oneonta chapter, Daughters of the American Revolution, was held yesterday afternoon at the home of Mrs. W. F. Blakeley, 36 Elm street. The hostesses were Mrs. Blakeley, Miss Elizabeth Blakeley and Miss Jessica Alden. Mrs. E. T. Smith addressed the chapter along lines of Americanization, in which she wished to interest the members in particular for the organization of classes for the mothers of the foreign element in the city. Later a report of the recent state convention was given by the regent, Mrs. H. Spencer Rowe.

Falls While in "Gym" Practice

On Wednesday, while engaged in gymnasium practice, Miss Edith Carpenter, daughter of Mr. and Mrs. Herman Carpenter of North Franklin, a student at the High school, accidentally fell against the side walls of the "gym" in such a manner as to dislocate her right wrist, and severely sprain the left one. Dr. Tarbox who was called to attend her at her rooming place at 99 Elm street found that she had sustained no other injuries of moment. She will, however, be weeks as it has been deemed advisable to place both wrists in splints.

USES COMMON YELLOW MUSTARD FOR CHEST COLDS AND SORE THROAT

Old Fashioned Simple Home Remedy Used by Doctors and Nurses for Inflammation, Congestion, Aches, Pains and Swellings.

Mustard, real yellow mustard, the kind you use at home, is being used more than ever to banish distress and misery and free mankind from agony and suffering. Not very long ago people used to make yellow mustard into a paste, spread it on a cloth and apply it to that part of the body where pain or inflammation was present. It surely did do the work it was expected to do, but it was messy and bothersome and often blistered the skin. People still use yellow mustard when they get a cold in the chest or have pleurisy, lumbago or rheumatic pains and swellings. But nowadays they buy this yellow-mustard in condensed form all ready for use for something like 30 cents a box and find it much better, cleaner and cleaner than mustard plasters.

This yellow mustard preparation, which

Alonso T. Zeeberger Wanted For Grand Larceny Captured—Wife Beater Gets 60 Days.

Alonso T. Zeeberger, alias G. C. Meyers, alias D. C. Smith, was arrested in Binghamton Wednesday on a charge of grand larceny in the second degree. The theft of a victrola is the charge against him.

Zeeberger entered the home of A. B. Pickard a few weeks ago between the hours of 12 and 1 o'clock in the afternoon, appropriating a phonograph, a ring and two stick pins. He sold the phonograph in this city and went away with the money. The theft was reported to the police department and they recovered the phonograph the same day. Clues as to the man who stole it were also found, and his eventual arrest in Binghamton was the result of these clues.

The police say that Zeeberger has a previous record back of him, and was arrested once before in Albany for the forging of a check for \$175. He served 17 months in the reformatory at Elmira for this offense. He was arraigned before Judge Holmes in police court yesterday morning on the charge and waived examination, and was held for the grand jury.

Wife Beater Gets 60 Days

Floyd Stillwell of 6 Wells avenue was in police court yesterday afternoon, having been arrested on a charge of assault in the third degree. The charge was preferred by his wife, who stated that he had beaten her severely.

He had been in court before on this charge and Judge Holmes sentenced him to 60 days in the county jail at Cooperstown, sentence being suspended on good behavior.

Child Reported Lost is Found

The police were notified yesterday that the two year old child of Benjamin Simons of 27 River street was missing. After considerable search the child was found by the officers and returned to his parents.

Taken to County Jail

Roy Gardner, who was arrested on a charge of burglary, and Alonso T. Zeeberger, arrested on charge of grand larceny, both being held for the grand jury, were taken to county jail yesterday to await the sitting of the grand jury. They were taken there by Officers O'Dell and Simmons.

THE WOMAN OF BRONZE

Margaret Anglin at Theatre in New Play Thursday, November 30.

Once again Margaret Anglin will be seen in an emotional role when she appears in her newest vehicle, "The Woman of Bronze," a modern play by Henry Kistemecker and Eugene Delard, which comes to the Oneonta theatre one night, Thursday, Nov. 30. Her undertaking in "The Woman of Bronze" promises to be the best in Miss Anglin's career. It is a role in which her compelling personality and her high artistic sense of dramatic values are given full sway. Departing from light comedy, to which she has given her time the last two seasons, Miss Anglin will return to the emotional drama, in which probably she is best known. Last season in "Billeted" she was happy in making her audiences laugh, this season in "The Woman of Bronze" she will be delighted when she tugs at the heart strings of her audiences and gains their approval in an emotional role. In the supporting cast will be seen Fred Eric, Edna Walton, Langdon Bruce, Harriet Sterling, Gerald Hamer and others.

"Why, Mamma, you have two-sight glasses just like Daddy's!"

Mr. Brown's experiences with two-vision glasses, and his fortunate investment in Kryptok, induced Mrs. Brown to consult her eye-glass specialist. He recommended Kryptok. Wise little daughter discovers that she is wearing them. Mr. Brown's friends, too, will be surprised, because there is ugly line or seam to distinguish them from single-vision glasses. Kryptok are the only bifocals without line, seam or hump.

KRYPTOK GLASSES K THE INVISIBLE BIFOCALS

Kryptok do not reveal age. They make one appear younger by enabling the person wearing them to see both near and distant objects as clearly and distinctly as with the eyesight of youth. They not only "look young" but they remove the thought of age from the consciousness, and from this standpoint alone psychologists say that they are wonderfully valuable.

OIL SECURITIES AND OIL STOCK BUYERS

During the past few weeks we have publicly advertised the purchase of stocks in two oil companies. Both of these are producing and paying substantial dividends, showing a large net return on the investment. There has been a marked advance in the price of both since we first advised their purchase.

We do not believe the man of average means can afford to buy stock in non-producing companies. We do know that we cannot offer stock of this character to our customers. We do know that no one can make any mistake in buying the securities of any producing, dividend-paying oil at any where near the present price levels.

We have just completed a most thorough investigation of a producing, dividend-paying oil. No public offering of this stock has ever been made. Within a few days such an offering will be made throughout the greater part of the Eastern United States. Prior to such public announcement we are in a position to grant most unusual inducements for the purchase of a limited amount of this stock.

A post card to us with your name and address will secure, without obligation on your part, full particulars of this opportunity.

MIGHTY HUNTRESS SEEKS NEW TRAILS

Lady MacKenzie Plans Trip of Discovery on Tana River in African Jungles.

REGION OF DENSE FORESTS

Stream Broken by Rapids and Waterfalls and Abounding in Big Game and Snakes—Land of Big Animals.

New York.—Heading an expedition to East Africa, which has as its object the exploration of the Tana river and the hunting of big game, Lady MacKenzie, the woman huntress, is in New York completing details of the trip and arranging to dispose of trophies obtained in two expeditions she already has made to Africa.

Upon her arrival at Mombasa, Africa, she will remain several days, superintending the shipment of nine tons of trophies she has stored there. These include many rare specimens of heads and skins of animals, and will be presented to the Bronx Zoological museum, the American Museum of Natural History, the Smithsonian institution, and other institutions.

One rare trophy is the head and skin of a garanak, an animal with a neck and head like a giraffe, which is seldom seen in the open, according to Lady MacKenzie, who shot the beast.

In her forthcoming expedition Lady MacKenzie said she would be accompanied by E. Postma, who was with her on her other hunting trips. William ("Bill") Judd, who was with Colonel Roosevelt's hunting expedition in Africa; E. Shelley, one of Paul Rainey's hunters, and Pete Pearson.

The Tana river, Lady MacKenzie said, is one of the most treacherous streams in the world. It is full of whirlpools, waterfalls and dangerous rapids. At places along its winding course the forests are so dense that travel is possible only by literally climbing over the tops of the trees. The length of the river is estimated at from 2,000 to 3,000 miles.

Land of Big Animals.

"I am returning to continue work that was interrupted by the war," she said. "In 1910 I was about to start the exploration of the Tana, and had established my camp at the junction of the Tana and the Tucki, when I was told I would have to stop.

"I appreciate the danger that lies before me, but I feel the discoveries that will be made will be worth risking my life for. What is along that river can only be guessed at. The Somalis and the Wandorobas have at times reported 'too much elephant,' meaning a great herd or great herds of elephants. At other times they have told us of huge lions, great rhinoceroses, hippopotamuses, and other great beasts. I want to find out if their tales are true and to get some specimens. I know that big snakes are to be found along the river, for I have seen them. They are what I really fear.

"After I have supervised the shipment of the trophies, I am going to visit the Masai. I want to take with me a complete surgical and medical outfit, including a medical man and his assistants. This race, one of the most remarkable in Africa, is afflicted with an eye disease that closely resembles trachoma. Unless it speedily is checked, the tribe will become totally blind in a few years.

"I also hope to accomplish another mission. The Masai women are practicing a form of race suicide. They fear that in time the whites will make them and their children slaves and servants. I saw only seven children in the tribe. It is only a question of a short time before this race becomes extinct, unless they are made to understand the white people no longer make slaves of black people."

How Germans Prepared in Africa.

Illustrating some conditions she will face on her trip, Lady MacKenzie told of incidents of her expedition in 1916. She gave an interesting insight on how thoroughly the Germans in German East Africa had prepared for the war. She said:

"We were hunting lions on the German East African border when one day we saw a party of blacks manuevering. We could not make out what they were doing until they crossed the border. Then we thought they were going to attack the British Africans. Things looked very serious and we decided to move camp. The rapid approach of the blacks forced us to leave hurriedly, but we were able to hide nearly all of our supplies and equipment."

"Three weeks later we reached Nairobi and reported what we had seen. The British authorities sent out runners to learn what was going on. They reported that the German Africans had seized all the water holes and were occupying other strategic points. This was four weeks after we had reported. A day or so later news reached Nairobi that Germany had declared war. Thus you can see the blacks in Africa had had orders from Germany to act more than seven weeks before war was declared."

Aviators Must Fly High to Leave Churches Quiet

Santa Monica, Cal.—Hereafter all aviators flying high on Sunday will be banished into the highest clouds between the hours of 10 a. m. and 1 p. m.

HERE'S FANTASTIC FISH YARN

Five-Dollar Bill Comes Up With Bait Within Net Cast at Galveston.

Galveston, Tex.—Many and varied are the fish stories which come to light in Galveston during the course of a season, but there are none of the fantasy vouched for by L. Sandel of Galveston and party, who recently journeyed to Anderson's Way, down the island. A party, consisting of his father and mother, and an aunt and uncle were with young Sandel on the trip. It became necessary to make a cast for bait and young Sandel waded out into the bay and cast the net.

He brought it to the shore well filled with mullet, crabs and other species of fish, and reposing on the bottom of the lot was an oyster shell wrapped in a five-dollar note. The bill was partly destroyed, but the serial number and the figures were still plain, and it was accepted readily at a local bank.

Must Use Proper Form.

In giving vent to his feelings on his discharge, an old British soldier wrote to his late colonel:

"Sir—After what I have suffered, you can tell the army to go to hell."

In due course he received the following:

"Sir—Any suggestions or inquiries as to movements of troops must be entered on army form 123XYZ, a copy of which I inclose."

BLIND, HANDS GONE, WRITES

Crippled Soldier Becomes Competent Typist Through Patient Training.

London.—Blind and deprived of both hands, Sergt. Alan M. Nichols of the Second Durham Light Infantry refused to be classed as an "unemployable," and today can write letters as proficiently as any normal stenographer. Nichols' restoration to life-supporting basis was accomplished through patient training, a specially constructed typewriter, a pair of artificial aluminum hands and his own indomitable spirit. Recently he passed a writing test of two hours and fifteen minutes, his "copy" necessitating only two corrections.

Necklace 3,900 Years Old Gift to His Bride

Glen Cove, L. I.—Mr. and Mrs. Samuel Jackson Seaman announced the marriage of their daughter, Miss Elizabeth Pilling, to Julian Lansing, which took place at their home on Oak Lane. The ceremony was in accordance with the custom of the Society of Friends.

The bride wore white chiffon over ivory satin, with a court train. Her decorations were a long string of Egyptian carnelians dating from about 2,000 B. C., a gift of the bridegroom, and a string of pearls encircled by diamonds, a gift of her mother.

Inspect Cadets.

Field Inspector Thomas G. Russell of the New York State Military Training Commission was in this city yesterday and inspected the Cadets at their drill at the Armory last evening. Inspector Russell told the Cadets of the objects and aims of the Military Training Commission. He also complimented the instructors very highly on the efficient manner in which they were training the Cadets. In connection with this article, attention is called to employers who have boys working for them between the ages of 16 and 19 years. The law requires that employers must inspect regularly the cards given the boys by their instructors and to see that they are in regular attendance. They must also see to it that all boys employed by them, between these ages are registered for military training.

Evans Murder Trial Progressing

Up to six o'clock Wednesday evening there had been eight jurors secured for the trial for murder, of Newell Y. Evans, before Justice A. L. Kellogg at an adjourned regular term in Binghamton. Just at the stroke of the hour, however, the attorney for the defense noticed that one of the jurors was whispering to the district attorney and moved that he be promptly removed from the box. The challenge was granted and the other jurors moved up one leaving only seven in the box. The work of securing jurors continued yesterday and it was believed that the box would be filled before adjournment.

A feature of the trial on Wednesday was the summoning of the board of supervisors as a body. To them Justice Kellogg outlined the condition of the Broome jury list, pointing out that many men summoned are palpably unfit for duty or otherwise disqualified. He asked the appointment of a commissioner of juries whose duty it would be to furnish jury lists acceptable to the county. It is stated that it cost the county more to summon the men called on Monday, not one of whom was accepted.

Hunting Party Returns.

The hunting party composed of Dr. William P. Brady, Dr. F. H. Marx and Dr. McMenamin, which left recently for Stratford in the Adirondacks, returned Wednesday to this city. They were unfortunate in securing no game, attributing their failure to bad weather, and the scarcity of four-footed deer in that locality.

Return From Hunting Trip

William McQueen, Lewis G. Eckert and Lawrence Smith returned this morning from their hunting camp in the Adirondacks where they were successful in bagging a black bear and a fine eight point buck deer. The snow was very heavy in their locality for several days. "Bill" says you have got to be rugged to eat Grant's pancakes.

Deportation Proceedings Instituted To Rid Country Of All Radicals

COURT UPHOLDS ACTION

Declares Seized Literature Clearly Advocated Overthrow Of U. S. Government

Washington, Nov. 10.—Deportation proceedings have been instituted in a number of cities to rid the country of the violent radicals caught in the nation-wide raids which have been in progress since Friday night, Attorney General Palmer announced tonight. Instructions have gone to all department of justice agents, the attorney general said, to permit no delay in instituting formal hearings preliminary to the actual deportations. Assurances have been received from other government departments having to do with deportations that action would be taken to expedite the cases. In the meantime, the clean-up of the country will continue, Mr. Palmer announcing tonight that there must be "no let up." The total number actually held on deportation warrants had reached 391 tonight.

After Russian Union in Particular.

Efforts of the department's representatives, it was said, are being directed more particularly at the Union of Russian workers. This organization, branded by the attorney general as the most dangerous anarchistic group in the country, was said to have wide ramifications, with the department agents still uncovering new evidences of its activities. Opinion at the department of justice as expressed today seems to be that the Russian union perhaps was constituting itself a self-appointed leader of all organizations which are preaching overthrow of the government.

Upholding the conviction in New York of Jacob Abrams and four other Russians for spreading radical propaganda, the supreme court, in a majority opinion written by Justice Clarke, today declared that the pamphlets prepared by the Russians and scattered broadcast from roof tops in the Lower East Side, New York city, were "clearly an appeal to the workers to arise and put down by force the government of the United States."

Justices Holmes and Brandeis dissented and the former declared in a minority opinion that the circulation of the leaflets, which protested against sending American troops to Russia, was not in violation of the espionage

act. The right of the Russians to publish the pamphlets, Justice Holmes said, was as clear as the right of the federal government to publish the constitution of the United States.

The Majority Opinion.

The majority opinion pointed out that the men, who were given sentences of from three to 20 years, had taken no steps toward naturalization, although they had lived in this country from five to ten years.

"Four of them testified in their behalf," said Justice Clarke, "and of these three frankly avowed that they were 'rebels,' revolutionists" and "anarchists," that they did not believe in government in any form, and they declared they had no interest whatever in the government of the United States. The fourth defendant testified that he was a 'socialist' and believed in 'a proper kind of government not capitalistic,' but in his classification the government of the United States was 'capitalistic.'"

Justice Holmes in his opinion said congress could not forbid all efforts to change the mind of the country. Conviction of Abrams, Hyman Lackowsky, Hyman Rozansky and Mollie Stimer resulted from the printing of pamphlets criticizing the government's action in sending troops to Red Cross during the day, paying a good American dollar for the honor during his visit to the Red Cross headquarters. The badge of membership was pinned among the war decorations on his breast by Mrs. Farrand, wife of Dr. Livingston Farrand, chairman of the Red Cross central committee, and he wore it proudly during the day.

"May I in return present you with a dollar, which, I think, is the proper thing?" the prince said as he received the badge.

The dollar he tendered and his autograph were placed besides those of King Albert and Queen Elizabeth of Belgium in the society's museum. Russia and urging munition workers to strike.

Abrams and Lackowsky were sentenced to 20 years, Mollie Stimer to 15 years and Rozansky to 3 years.

Most of Arrested Are Russians.

New York, Nov. 10. — Of a total of 37 prisoners taken in raids on radicals here Saturday night, only one is an American citizen, according to a statement issued tonight by Deputy Attorney General Berger.

"The majority of these," he said, "are Russians and have been in this country about three years."

Mr. Berger said it was likely that all would be deported, although Assistant District Attorney Rourke said tonight he was informed there were no passenger ship sailing for Russia, and advocated "the organization of some patriotic American citizens to charter a ship to transport them back to where they came from."
